

THE GRIP EPIDEMIC

How To Dodge It and What To Do If You
Already Have It

If you are overtired, weak or run-down, you catch cold easily. If you have a cold, it is easy for grip to take hold. If you have the grip, it may easily lead to pneumonia, and that often ends fatally.

So first of all do not allow yourself to get run down or weakened. Build up new strength by taking Father John's Medicine, which gives health resistance to overcome disease.

But if you have a cold, do not neglect it. Begin taking Father John's Medicine right away. It is the logical, safe way to treat a cold and has proven its value by more than 60 years' success.

A mild attack of grip will usually yield to Father John's Medicine, but the getting-well stage is the danger point. It is that the body, weakened by the grip, is open to attack by many other lurking disease germs. These poisons must be driven from the system and Father John's Medicine is most effective by means of its laxative effect and because of its strength-giving, health-building, tissue-forming elements.

Remember, Father John's Medicine is a pure, wholesome food. Guaranteed absolutely free from opium, morphine, heroin, cocaine or any other dangerous drugs or alcohol. Get the large size—it contains more than twice the small size.

LOCAL BUILDING OPERATIONS ARE FEW

Building operations in Norwich and vicinity during the past week have progressed rather slowly and few new contract jobs have been reported. The work has been chiefly on repairs and a few additions to places in the city.

At the Marlin-Rockwell plant, on Franklin street there is continually new work in wood and masonry repairs going on, but no extensive building is under construction. Peck, McWilliams company have the contract for the Marlin-Rockwell work.

The work on the bungalow for Dr. Hugh Campbell at the state sanatorium is practically completed and will be ready for occupation as soon as the contractors finish the interior work.

The work at the old John T. Young boiler company, which has been purchased by the Max Gordon corporation, has been completed. Cement floors have been laid and foundations for heavy machines have been set and other improvements to the building are completed.

At the Federal Paper company in Versailles a large cement shipping platform is to be built by Peck, McWilliams company and other improvements about the plant will be made by the contractors.

The work of resetting the boilers at the American Steamboat company is still under way and should be finished within a short time.

CONNECTICUT BUILDING AND BUSINESS

The record of real estate transactions in the Connecticut towns reported in The Commercial Record for the past week shows a considerably decreased volume. The number of sales for the week was 249, which compares with 476 in the like week of 1917, with mortgage loans of \$285,735, against \$274,240 in the same week of 1917.

The five petitions in bankruptcy filed in this state for the week have assets of \$2,537 and liabilities of \$77,481, the wide discrepancy between the assets and liabilities being due to a bad hotel failure in Hartford. This is the worst showing for the third week in October for many years.

The five new incorporations for the week have authorized capital stock of

WESTERLY

Police Chief Thomas E. Brown has finally received definite information from the police department of New York city relative to the theft of an automobile in that city. The car, owned by John and Johnson, who were arrested here last Wednesday night, and the stolen automobile placed in a local garage. Chief Brown received a telegram that a member of the New York detective force and the owner of the automobile would arrive in Westerly on Monday, but they had not arrived when this report closed.

Love and Johnson are held here in \$1000 bonds each for the theft of an extra tire from the automobile of William Brown of Mystic, and Johnson has additional charges against him of operating an automobile without an operator's license. Should the New York officer want the sailors to prosecute them for the theft of the automobile, they will be turned over to him and the cases against them have been discontinued.

Soon after the arrest of Love and Johnson, who are at the house of the Brooklyn navy yard, the naval authorities at New London were notified, and information came back that the naval authorities did not want the sailors until formally released by the civil authorities and the punishment of their crime.

But for the notification from the New York police, Love and Johnson would have been committed to the Kingston jail to await trial before the superior court for Washington county. This was the fate unless they are turned over to the representative of the New York police department.

The Old Story. There are about 15,000 sick in Houston between the ages of 12 and 20, but our patrols report that 95 per cent of the old town's dishes are washed by mothers.—Houston Post.

Hoosier! A skirt has been invented for women that can be worn at the walking length, shortened for sports or divided and converted into bloomers.—San Francisco Examiner.

No Time to Help. The Huns might retort to the cry of the Turk for help that he isn't being half so badly whipped as they are.—Marion Star.

When the average man attempts to stand on his dignity he is very apt to find that his feet are too large for the pedestal.

Girls! Act Now! Hair coming out means dandruff.

"DANDERINE" WILL SAVE YOUR HAIR AND DOUBLE ITS BEAUTY AT ONCE.

TRY THIS! YOUR HAIR GETS SOFT, WAVY, ABUNDANT AND GLOSSY AT ONCE.

Save your hair! Beautify it! It is only a matter of using a little Danderine occasionally to have a head of heavy, beautiful hair; soft, lustrous, wavy and free from dandruff. It is easy and inexpensive to have pretty, charming hair and lots of it. Just spend a few cents for a small bottle of Knowlton's Danderine and all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you will, you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—sprouting out all over your scalp.

Danderine is we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

Sidney A. Brown, the nominee for sheriff for New London county, is the only candidate of either party to whom reference is made in Pawcatuck, just over the bridge. He was asked as to the political situation over there, a Pawcatuckian replied: "Say, would you believe it the only candidate I've heard mentioned is Sidney A. Brown, sheriff, and he'll get a big vote in the village, as he always does. I wouldn't be surprised a bit if every democrat in the place voted for Sidney, and I'm one of them."

The Fourth company, Westerly, Rhode Island State guard, in the opinion of military critics who viewed the marching and drill of the state's soldiers in Providence, is entitled to the highest honors for general proficiency, and is easily the superior of all other companies in the military outfit. This is the result of the painstaking efforts of the officers and the hearty co-operation of every man in the ranks.

These Elwin Tillingshast of Westerly is one of three flight lieutenants who escaped from German prison and reached Holland. They were captured at Valenciennes during the period from Sept. 3 to 27.
